before purchasing it in order to gauge whether or not it would be worth my time, and all praised 1. Iran Travel Reference Map 1:1,800,000- 2008\*\*\* (International Travel Maps):

4 of 4 people found the following review helpful. serviceableBy CaraculiambroThis map of Iran is serviceable enough, including a close-up job of downtown Tehran. But it's a road map, intended for travelers. What would have been nice is if they had printed the Farsi equivalent of the English place names below the latter, but no such luck. The entire map is in English. With the exception of major cities, the place names you'll see when you are actually in Iran will all be in Farsi. In the interests of space, the mapmakers have divided Iran: the front of the map is one half of Iran, the back of the map the other half. For this reason, if you're ordering this map for a wall display, you're going to be seriously disappointed. 1 of 1 people found the following review helpful. Great Map of IranBy Mother JonesMy husband and I just completed a 4000 mile road trip throughout the country. The map was invaluable. I highly recommend purchasing it. That said, if you are on one of those pre-planned tourist route only trips, it will still help you to situate yourself.

Folded road and travel map. Scale 1:1,800,000. Distinguishes roads ranging from motorways (toll) to tracks. Legend includes railways, points of interest, peaks, ports, monuments, international/domestic airports. Includes inset map of Central Tehran (1:50,000). Extensive index.

4th Ed. 2008 1:1,800,000 In spite of being a controversial political entity, Iran is a fabulous touristic attraction. The fabled Blue Mosque of Mashhad graces our cover, unchanged in a changing world and a symbol of the reality that is today's Iran. This version has been further updated by showing the new stretches of the motorway system and improving the readability of the map by softening our colours; printed double-sided on paper. --itmbAbout the AuthorITMB Publishing (International Travel Maps and Books) of Vancouver, Canada, has published detailed reference and travel maps of countries, regions, and cities around the world since 1985. The company's titles include many that are unique or the first of their kind, including the first commercially available travel map of South America.
