But more important, if one has a working knowledge of Quito, this is WAY too much detail. It would have been terrific if they could somehow have broken this into three or four "sector" type maps so that if you were really just interested in La Mariscal, say, you didn't have to see the entire city at this level of detail.0 of 0 people found the following review helpful. Great map of northern Ecuador!By Angela K.Perfect-- exactly what I was looking for with the details I wanted on northern Ecuador .0 of 0 people found the following review helpful. Five StarsBy pdpPerfect for my needs. Came quick too.

A road map on both sides of Ecuador: one side shows a map of North Ecuador (from Guayaquil to Colombia) and a detailed street plan of downtown Quito on the other side. The legend is in English and in Spanish.
