when you go! All of the travel tips are incredibly practical (such as how to make sure your credit cards aren't cut off when you travel) yet also have an eye towards the ultimate goal of traveling, which is to experience the culture and spend quality time with your family. And no wonder, since the authors are such experienced travelers themselves! I often refer to their wonderful *Family on the Loose: The Art of Traveling with Kids* before our family trips, so I'm especially glad to have more of their insights. While this new volume does contain many tips that could be used before any family travel, many others are specific to Europe. I love that they have tips for all ages, from infants (how much baby gear do you really need to bring?) to teenagers (how do you get your too cool older kids excited about the family trip?) A final note: You must check out the photography in this book: All of the photos were taken by kids! They are a beautiful tribute to the book's focus on children and their travel experiences.*I received a complimentary copy for review purposes; however, all opinions are my own.*1 of 2 people found the following review helpful. **GET THIS BOOK!** (I love it so...)By Jessica VoigtsYou know those guidebooks that are so creative and full of genius that you immediately start planning a trip? I have one such book to share with you (you'll love it!). *100 Tips for Traveling with Kids in Europe*, written by E. Ashley Steel (our *Traveling with Kids* Editor) and Bill Richards, is one of the best family travel books I've ever seen (another being their original family travel book, mentioned below). Why do I love this book so? Well, for many reasons! The breadth of information here is incredible. The first part, *Ready, Set*, offers advice for preparing, logistics, and itinerary planning. The second, *Go!*, shares flight and travel tips. The third, *Home again*, offers ways to make your journeys last beyond your trips. These 100 tips? They will change the way you travel to Europe with your kids (and the way you travel even seasoned travelers can learn much from this guide). The book also includes tips for travel with kids of all ages, from babies to teens. It provides an interculturally sensitive look at how to travel and how travel impacts us and the places we visit. All of the 100 tips are genius and worth incorporating into your travels. If you choose one guidebook for travel, no matter where you go, **THIS IS IT**. For while it incorporates European travel, the bones of the book are excellent family travel tips. It will change your travels and the way your family travels together. Highly recommended.2 of 3 people found the following review helpful. This book covers all the tips you need to know and then some!By Kirsten MaxwellIt can be hard to find a book that gives you copious amounts of useful information, but Ashley's book does just that. From tips on what to do before you hop on the plane, to fun things to do while you're exploring Europe, this book really has thought of everything and then some. She also provides tips for getting the most out of a family trip to Europe, from seeing the Viking ships in Roskilde, to riding cable cars in the Alps, to visiting their historic amusement parks. Best of all, the book is lightweight, so throw it in your backpack or purse and take it with you on your next trip. You won't be disappointed!

Ready, Set ... Go! Jam packed with tips and ideas, this book will help you with every step of a European vacation: designing a kid-friendly itinerary, booking fun and interesting lodging, choosing the best ways to get around, packing light, saving money, enjoying the airplane ride, staying safe, and immersing yourself and your family in the many cultures of Europe. Inside you'll also find dozens of gorgeous photos taken by kids while traveling in Europe. Just flipping through is inspiration and gives you a fun perspective on how kids experience traveling adventures. From the National Museum of Underwater Archaeology in Spain to the Hay Festival in Wales; from Eyjafjallajökull to the Jungfrauoch; from musical street buskers to the Mona Lisa; and from cricket to Calcio Storico, this book will help you and your kids find adventure, education, and great food across the European continent. Bonus: we also include tips for the all essential step of coming home again!
