book and the videos that come with it. I imported the videos into my computer and watched them right away. The files just popped up and I could open them with a simple double-click. The videos are very cute. Short, sweet, and to-the-point. They create a distinct image that is humorous and makes the verbs much easier to remember. If you have not clicked "look inside this book" you should go do that now. Look through the whole thing. This book is also available in a "cartoon" format, but the computer images and video are much more modern and honestly just designed better. The video corresponds exactly with the images on each page-- each verb has its own page in the book and the conjugations are color coded underneath. Each verb is also spoken in English and Spanish in the video clip. Research has shown that memory works best by association! I highly recommend this for even beginning level Spanish learners, although if you are a beginner you might want to avoid the actual conjugation of verbs until you learn more about it. Still buy it though to memorize the meaning! 1 of 1 people found the following review helpful. Not the product I thought I purchased. By Kris Farrens This was not the product I thought I purchased. The verb book I thought I was purchasing had more verbs and each conjugate of the single verb didn't count as one of the 101 verbs. Very misleading. 5 of 6 people found the following review helpful. 101 verb video review By Pamela Ann Durkute, but more geared towards children and teens. The Spanish sentences are too fast for a beginner to understand.

Your visual tool for mastering Spanish verbs Learn key verbs through vibrant illustrations Master six of the most useful tenses of each verb Find the verb tense you need through easy-to-navigate charts Practice verb usage through example sentences See verbs in action in cute MP4 videos for your iPod or computer Listen to correct pronunciation on the book's free companion site, learnverbs.com Through colorful tables and ingenious animation, you will learn more than 100 verbs!
