(Essential Vocabulary) before purchasing it in order to gauge whether or not it would be worth my time, and all praised 2000+ Essential French Verbs: Learn the Forms, Master the Tenses, and Speak Fluently! (Essential Vocabulary):

0 of 0 people found the following review helpful. It would be an excellent French verb text if a large part of the ...By Priscilla GipsonIt would be an excellent French verb text if a large part of the book was not missing. Discovered it only afterI had used and marked the text.0 of 0 people found the following review helpful. I will recomend it for advanced students and not for begginersBy Neil E. Barrientos L.A bit confusing for beginners. This is for advanced people.8 of 9 people found the following review helpful. Look elsewhereBy Eric S.First, the CD with Before You Know It software: It works, which is about as much as one can say in its favor. If you're using a Mac with an up to date OS, be prepared for a hassle. The vocabulary list files will not work unless you first email customer support at the company. They'll send you a link that allows you to download an updated version of the software. (The download is very slow. If you're using a dial up connection, be prepared to pack it in for the night.) Once installed you may yet fall into a minor trap--that of having vocabulary lists you've already spent time creating, being completely deleted without warning by the updated software.The lists that eventually do work are relatively small in size. Hence, the option for you to do the lion's share of the work in creating your own.The usability of the software is below average in terms of intuitiveness, convenience and efficiency. Opening new lists, switching out of the list you're already in and more, is not done from an easy to use master menu, but is discovered over time by clicking through illogically organized windows and wordy options. It comes close but doesn't quite win the ignoble label of geek-ware.The book's contents are well-designed but spare. And, unless I'm missing something, there are not 2000 verbs in this book.I purchased this book out of a desire to replace an aging copy of 501 French Verbs: with CD-ROM (Barron's Foreign Language Guides). My copy of this contains many more verbs and more explanatory content. I should have purchased a newer version of it.My advice--skip this book and CD. Go for the 501 French Verbs. You can easily make your own flashcards. For pronunciation, explore the growing number of French language podcasts on iTunes and elsewhere.

French Verbs JUST GOT AS EASY AS 1-2-3Great news! Whether youre learning French for fun, school, or work, 2,000+ Essential French Verbs makes everything simpleconjugations, tenses, irregulars, and even conversation. 2,000+ French verbs in alphabetical order Translations, prepositions, and regional usage ALL major tenses and regular and irregular verb forms covered Help with forming tenses, explained in clear English Sample sentences that show verbs in action 40 engaging dialogues that bring verbs to life More than 100 practice exercises Special help for tough verb questionsAnd for extra practice, FLASH CARDS help you memorize key verbs!
