Very few pictures of sea life (which I love) and some are repetitive (breaching whale, star fish). Can't quite figure out why I am underwhelmed. All I know is that previous years calendars made me want to grab a bathing suit and jump on a plane immediately to the nearest island -- not with this calendar.1 of 1 people found the following review helpful. I have it in my office, and it helps take me to my happy place, while serving useful purpose.2 of 2 people found the following review helpful. Not much writing room, but the photos more than make up for it!By Just My Opinion....Small daily boxes, but worth the tight space for the plethora of gorgeous tropical photos and the information on each "island of the month."

This month Lanai, next month Aruba. Then Corfu, Tabarca, and the holidays in Jamaica. Now thats a year in paradise.
