Super Reference Verb Book By rana verde This I purchased due to the successful results of using the Barron's 501 Spanish Verbs. When I was picking out books to buy in order to study Italian, I immediately chose the Barron's 501 Italian Verbs. Since it is difficult for me to retain the basics of a new language this becomes a great verb reference book. And don't forget to read the opening 15 pages which are a great summary of verbs.

Barrons is today and always has been the Number-One reference source for verb usage in virtually every major language.
