**From Abingdon Press : Abingdon Bible Land Maps with Charthead Tripod--Set of 8** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Abingdon Bible Land Maps with Charthead Tripod--Set of 8:

4 of 4 people found the following review helpful. Exactly what you need to teach a Bible class. By James Hugh Drury The maps are an excellent resource and the tripod is very handy for transporting and displaying the maps. I only wish the company would produce a set of clear transparent overlays of the shape of the world today, especially in the Middle East with all the changes in boundaries and borders. Other than that, a terrific resource for teaching my Bible classes. 1 of 1 people found the following review helpful. Very nice. By ScottieG These are well printed on good stock; the tripod was of a better quality than I was expecting too. Not as good as the maps my university had, but I'd wager dollars to donuts those cost a fair bit more as well. I bought these for a Sunday School class/youth group and am quite satisfied. 0 of 0 people found the following review helpful. they are extremely helpful in giving students a better understanding of Biblical history. By R. Martin These maps are a big help in any Bible study class. Although they may not show every possible feature in a particular region, they are extremely helpful in giving students a better understanding of Biblical history. The tripod can be raised or lowered, and the maps can be rotated to face any direction too. Very helpful, and well made too.

Enhance in-depth Bible study classes for youth and adults with these clear and concise maps created by Oxford

cartographers using the most current biblical archaeological findings. Abingdon Bible Land Maps Set of 8 features a tripod that extends to a full 7.5 feet. Each of the eight maps (The Ancient Near East Before the Exodus, The Exodus, Israel's Settlement in Canaan, The Prophets and the Exile, Paul's Journeys, Palestine in the Time of Jesus, the United Monarchy, and Jerusalem Old Testament/New Testament Comparison) is 26 x 40 and is mounted securely on a special chart-head. Each map features a location index/finder printed on the back to help locate sites, and is printed in full color on waterproof polyethylene film that resists wear and tear for years of service.
