The chapters are separated by region and I look forward to trekking to many of these places![...]. I truly enjoy writing reviews on products that will potentially help someone make an informed decision based on my experience and I also greatly appreciate and I love and hearing feedback so please feel free to let me know if I helped. I make most of my daily purchases here on and base my purchases on reviews of the product from others as well. I know that honest and helpful reviews provide insight to the company and to the purchasers as well.I received this item at a discounted rate in exchange for a fair, honest and unbiased review. I

only buy products that I will actually use and test to give fair feedback on. I also only give a 5 star rating when the product is excellent and deserves such a rating. I base my review on overall quality, use, and if it meets the description given by the seller. If I feel that I can't honestly give at least a 4 or 5 star rating then I contact the seller and try to resolve the problem first to see if there is anything that can be done that would remedy the situation. Sometimes there are only so many things you can say about a product, so I try to be as direct as possible. You can trust that my reviews are not only for the seller's benefit but for other customers interested in purchasing this product as well. 3 of 3 people found the following review helpful. Well worth the price. By Tom Johnson Overall, a very informative book with some great shots of the sites. Unfortunately, I was hoping for more recommendations in the upper northeast. But, I would highly recommend it for other regions of the country. I'm sure it will be beneficial for my future trips. 0 of 0 people found the following review helpful.
