KoppOne could find more information on the Internet. This book was a big disappointment and in no way a guidebook. There were no maps and the information was simply presented. It also contained some irrelevant information on some excursions not even in Abu Dhabi. It was not worth the money.0 of 0 people found the following review helpful. would like to have been more inclusiveBy Barbara Duncanvery simple. would like to have been more inclusive... maps travel info etc.

Abu Dhabi is part of the seven-member United Arab Emirates (UAE), and is its capital city. With a population of 921,000 it is the second-largest city in the United Arab Emirates. It is home to the governor of the UAE, the Abu Dhabi Emiri family (the ruling family of the UAE), and the President of the UAE and his family.
