As such, it attracts a large number of trekkers as well as climbers each year. Some of them also die on the mountain in bad years.While most novice climbers will probably go

with one of the recognised climbing companies from Mendoza, a guide such as this excellent volume is an essential requirement in understanding and planning a climb of Aconcagua.0 of 0 people found the following review helpful. Great reference bookBy MarcHelped out a lot on my solo-hike/climb. Great reference book, but a little outdated. Use online resources to verify information.0 of 0 people found the following review helpful. Five StarsBy RamonI really like it

This updated guide discusses equipment, safety, conservation, and details popular and less-traveled routes of the Western hemisphere's highest peak.
