**Virginia Mudd : Across America on the Yellow Brick Road, Cycling into a New Life** before purchasing it in order to gage whether or not it would be worth my time, and all praised Across America on the Yellow Brick Road, Cycling into a New Life:

What a story and what a great writer.By passionate about booksIf, like me, you need to go on another adventure with Virginia, get this book! The writing is just as engaging, funny and riveting. It is interesting to contrast the young Virginia who is facing her first real confrontation with the need and expression for independence with the wiser, more

seasoned Virginia of the second book. The same astonishing honesty and wonder led me page by page on a journey I will never take myself. I am so grateful that Virginia can write so vividly that I can have the experience of biking across America. I think this story should be made into a movie. If you know a film maker, send them this book.

Imagine reading a "Cycling Companion Wanted" ad in a bicycling newsletter for a cross-America bike trip, answering it, and setting off two months later with a woman you just met for a 3,500-mile, 60-day journey from California to Washington, DC. Taken from Virginia's journal this tells the story of two twenty-nine year old adventurers who fulfill a common dream. She recalls exhilarating roads and landscapes, tedious miles, peaceful times, scary experiences, personal struggles, wonderful encounters with people, and the unfolding of a journey of a lifetime.
