Bought it because we operate a business where we need to find locations while driving, and GPS is not always practical or accurate. ADC has not been making as many maps lately because of modern GPS technology. We were lucky to have found this map used. Thanks for the quick service.0 of 0 people found the following review helpful. Hard to find!By DanI was glad to get this! I have had a very hard time finding street level maps for my area! I never expected that maps would become so obsolete. GPS is great and I love mine, but it's always nice to have a map just in case! If you don't have a local map in your kit, you better try to get one now. They will be gone soon!1 of 1 people found the following review helpful. ADC Street Map of Prince George's County, MDBy David M. EibandI ordered this street map book for my daughter, as she heads off to college, so she can drive to her grandparent's home in New Carrollton, MD. Unlike the wide open spaces of the Mojave Desert where we live, Eastern cities are a bit more complicated and require decent maps with which to navigate. We were extremely impressed to find the ADC street map easily usable, and it clearly showed the three (3) house street on which her grandparent's live. It doesn't get any better than that!
