I only wish they would extend the coverage further north to include South Granville County. Maps #765-770, 655-660, 550-555, etc. are not included in this book, but they are shown in the index in addition to the maps that are included. This means they exist and would not have to be created, there just isn't a book that includes them. Other than that, this book is the right item. Essential NC Triangle toolBy Duke Townielf you don't have a GPS device, essential for finding your way around all of Durham and Wake counties, the Chapel Hill-Hillsborough part of Orange County, and the near parts of several other bordering counties. Bought one for myself and one for my NC Department of Transportation office.
