Robert Wicks : Adventure Motorcycling Manual - 2nd Edition: Everything You Need to Plan and Complete the Journey of a Lifetime before purchasing it in order to gauge whether or not it would be worth my time, and all praised Adventure Motorcycling Manual - 2nd Edition: Everything You Need to Plan and Complete the Journey of a Lifetime:

3 of 3 people found the following review helpful. Armchair adventures By S.W. It doesn't go into detail on any one particular topic, but it touches on a lot of things. I like to look through it over and over, catching details of the bikes, etc and dreaming of my own adventures...someday. 2 of 2 people found the following review helpful. Well written By SC Wood A book quite full of useful information on riding, safety and touring. Some good technical tips and advice on adventure riding from experienced riders. 2 of 2 people found the following review helpful. I love those Robert's

book. By Plauto Covre They are fantastic for everyone interested on this subject. I am a new rider and I am learning a lot. THANK YOU, Robert Wicks!

In typical Haynes style and with an emphasis on pictorially-led chapters, the structure of the book leads the reader in a logical progression using first-hand experience from the planning stage through to execution. The subject matter has many unknowns for first-timers and the book will address the majority of these questions, providing enough information and comfort for the reader to confidently consider, plan and complete a trip. The book should inspire, enthuse, invigorate and at the very least, tempt the reader into considering the possibility of an adventure, albeit for some this will take place from the comfort of an armchair, with the book firmly in hand.

About the Author Robert Wicks has written two books for Haynes Adventure Motorcycling and Adventure Riding Techniques. He is currently the Commercial Director for the Powerboat P1 World Championship.
