National Geographic Maps - Reference : Afghanistan, Pakistan [Laminated] (National Geographic Reference Map) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Afghanistan, Pakistan [Laminated] (National Geographic Reference Map):

24 of 24 people found the following review helpful. Very Helpful Map By Sharon Waincott I had order this

Afghanistan map because my son was deployed there in March 2010. I wanted to be familiar with the different locations in afghan when I heard it on the news. I have actually learned some interesting things by ordering this map. I would recommend this for any mom. Thanks for the map. God Bless Our Troops!0 of 0 people found the following review helpful. Left it at home ...By ColonelDadAs another reviewer had, I purchased this map before traveling over there and pinned it up in the study. My family said they felt more connected to me by looking at the map when I communicated back and told them where I was at a particular point in time. And very nice quality.0 of 0 people found the following review helpful. National Geo makes the best mapsBy Richard StowellI am a US Soldier in Afghanistan, and I wanted this map for obvious reasons. It is clear with the familiar NatGeo fonts and colors. I would have preferred a landscape map only of Afghanistan, but this one serves.

National Geographic's map of Afghanistan and Pakistan is the most accurate and detailed reference map available for the region, covering these two countries as well as Tajikistan and parts of Turkmenistan, Uzbekistan, Kyrgyzstan, China, India and Iran. This Classic style wall map uses a bright and vibrant color palette and precise shaded relief, making it as attractive as it is educational. Accurate political boundaries are displayed on the map, including in the disputed area of Kashmir. Pinpointed are thousands of cities and towns, mountain ranges, national parks, glaciers, swamps, areas of sand, oil fields, highways and other roads, international and domestic airports, canals, railroads and waterways, including intermittent and dry salt lakes. The map is encapsulated in heavy-duty 1.6 mil laminate which makes the paper much more durable and resistant to the swelling and shrinking caused by changes in humidity. Laminated maps can be framed without the need for glass, so the frames can be much lighter and less expensive. Map Scale = 1:3,363,000 Sheet Size = 21.5" x 32.5"

About the AuthorFounded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
