Here's a little story about this book. A guy walks into a mountaineering store in Jackson Hole, Wyoming and asks for a book on backcountry skiing and the sales-lady shows him this book. He only glances at it and states: "I meant a real book." Our society is in a miserable state of de-evolution and this guy is living proof of the sorry state of humanity! Needless to say, this guy is totally lame! Watch for the follow up book; TELEMARK TIPS! This review was also a form of shameless self promotion by the Mike guy from the title. For all your backcountry skiing needs, this book is your one stop source and it is full of MAD magazine (and R. Crumb) inspired illustrations. These cartoons are funny and informative plus the text is awesome too! Black Diamond equipment is the leading source of backcountry skiing gear and they keep a copy in their bathroom! Talk about a place of honor, what are you waiting for? You NEED this book! 'Nuf said... Mike!
