Krista Schlyer : Almost Anywhere: Road Trip Ruminations on Love, Nature, National Parks, and Nonsense before purchasing it in order to gage whether or not it would be worth my time, and all praised Almost Anywhere: Road Trip Ruminations on Love, Nature, National Parks, and Nonsense:

What do you do when your world ends? At twenty-eight years old, Krista Schlyer sold almost everything she owned and packed the rest of it in a station wagon bound for the American wild. Her two best friends joined her one a grumpy, grieving introvert, the other a feisty dog and together they sought out every national park, historic site, forest, and wilderness they could get to before their money ran out or their minds gave in. The journey began as a desperate escape from urban isolation, heartbreak, and despair, but became an adventure beyond imagining. Chronicling their colorful escapade, *Almost Anywhere* explores the courage, cowardice, and heroics that live in all of us, as well as the life of nature and the nature of life. This eloquent and accessible memoir is at once an immersion in the pain of losing someone particularly close and especially young and a healing journey of a broken life given over to the whimsy and humor of living on the road.
