Candid account of crossing the Antarctic continentBy everyone's a criticAfter reading several books about dead white male explorers in Antarctica, this account was a refreshing change. I found myself rooting for this woman, sometimes wanting to give her a kick in the snowpants to tell her to get a move on and at points being moved to tears about a necklace her sister gave to her and some cookies in the bottom of her

bag. I think her book truly made me understand how terribly difficult such a journey is mentally, from battling her loneliness and strange behaviors and thoughts brought on by fatigue to some quirky moments that made the reader realize just how alone she really was to some dangerous behavior that had me seriously concerned about whether she was going to make it alive. She seemed to me to be very candid in this account, sharing her vulnerabilities and mistakes so that you really are rooting for her once she leaves the South Pole. I gave the book four stars because I wanted more. This had a movie-like ending, not a book ending. She seems to gloss over the physical effort too much in my opinion. She has a hilarious anecdote about her training with a tire, but I wanted more details about her training for this adventure. Because I was rooting for her at the end, I wanted to be there for her reunion with her family and to see the reaction of her friends and followers. She speaks in the beginning about how such a journey changes someone and she does touch on how she's changed, but I was curious whether she was changed in the years that followed. Did her personality change? Did she change the way she chose to live her life? I also was interested in the messages she sent out on her sat phone. She and the reader don't know how her real-time accounts played online, but it would have been interesting to learn what the response was from those following her. Not during the journey, because that would have wrecked the solitary feel of the book, but in hindsight as she learned about it upon her return. Maybe time for another edition with a new epilogue?

Felicity Aston tells her story and as the reader you feel like you are right there with her on the ice as she attempts to traverse the most amazing landmass and scenery. From page 1 the adventure hooks you and you don't want to put the book down. As she tells her story she expresses herself in a very humble and easygoing straightforward manner. When she tells the story of why she did this it is not to achieve a status of elitism, or inflate her ego but just to test what her own personal limits are and what drove her to find that out. At the beginning she had no preconceived notions of whether she would be able to finish this or not and there were doubts along the way however she persevered making a little bit of progress everyday and eventually she achieved her goal. She also had some good general advice for the reader which I really liked and it would apply to just about anything that if you persevere you will achieve your goals and that we are capable of more than we give ourselves credit for. The way she expressed this is that we "all must get out of the tent" everyday whatever our symbolic tent is, whether we are camping, riding a bike a long distance, hiking, or whatever our adventures are. So fundamentally whatever you are doing you have to get up and get going no matter how good you are at doing the adventure or it will never get done. Congratulations Felicity on making an amazing story and being able to tell it. Bonnie Krim 4 of 4 people found the following review helpful. A must read!

By Grace Greenwood This book chronicles the amazing story of one woman who was brave enough to do what others would consider nearly impossible - skiing alone across the continent of Antarctica. Through methodical training and organization, Felicity Aston overcame every challenge the Antarctic threw at her. She is remarkable, courageous, and daring. Her writing draws the reader in to find out what will happen next. Readers who enjoy this book may also enjoy *Alone Across The Arctic*. *Alone Across the Arctic: One Woman's Epic Journey by Dog Team*

What would it feel like to be out there alone in that empty vastness? Just before midnight on 24 November 2011, Felicity is left completely alone on the coast of Antarctica. The isolation is instant and devastating. Only three people in the world have crossed Antarctica alone. The first two were men and both Norwegian. At the age of 34, British woman Felicity Aston became the third. Unlike her predecessors, she didn't use kites or parasails to assist her. Within days, frozen into her facemask and reflecting on what had drawn her to such a place, she was battling desperate weather as she towed her heavy sledges. Every morning she wakes believing she cannot face another day as the expedition becomes a race against time to reach the coast before the last flight out. This gripping and inspirational account of personal endurance shows what you can achieve when you grit your teeth and decide just to get through today in one piece.

'An extraordinary journey of solitude and determination' -- Ben Fogle 'Felicity's dynamic and inspiring storytelling links us all to our own crossing, helping us all push beyond our fears to reach our goals. Her descriptions of the ice and her honesty of the feelings it brings forth, stir our love for that magnificent place and the lifestyle of the challenge - we want to return!' -- Ann Bancroft and Liv Arnesen, polar explorers 'Felicity's gripping adventure captures the thrill and fear of Antarctic exploration' -- Ranulph Fiennes 'Resilient, brave, daring, foolhardy, admirable and hugely likeable' -- Joanna Lumley 'her achievement is remarkable' The Daily Mail 'admirable, emotional and enchanting... a must-read' Wanderlust About the Author Felicity Aston has spent over a decade travelling, working and living all over the Polar Regions. In 2009 she led the most international team of women ever to ski to the South Pole; this became the subject of her first book, *Call of the White*, a finalist in the Banff Mountain Book Competition in 2011. Outside Magazine, the leading adventure-travel magazine in the US, named her one of their 2012 Adventurers of the Year.
