Mauro Burzio / Romulo Moya Peralta : Galapagos, Islands of time before purchasing it in order to gage whether or not it would be worth my time, and all praised Galapagos, Islands of time:

1 of 1 people found the following review helpful. Excellent photos
By CM writer This is a great souvenir of our trip to the Galapagos. The quality of the photos is great. The size is perfect for a coffee table book.
5 of 5 people found the following review helpful. Galapagos
By P. Schlosser I bought this book as a gift for a friend that will be going to the Galapagos Islands. It was well worth the money. The photographs are sensational. Is truly one of the best picture books I have seen in years. It is written in both English Spanish, jammed with fascinating information and maps. You won't be disappointed.

Mario Burzo is a great photographer, that has devoted his live to projects where rugged nature and beauty collides, He had published several books on Africa and Australia, this new venture takes him to one of the most exotic and fascinating areas of the world; the Galapagos, this is a great pictorial book on these Magical Islands
