For an older book the content is still moderately useful with most the activities fun and useful.1 of 1 people found the following review helpful. Crafts a little more detailed then I thoughtBy Michele VielhuberSome of the projects are great! Some of the things require more art room type supplies than a special ed. classroom supplies.2 of 2 people found the following review helpful. Great ideasBy MomI actually had gotten this book from the library and loved it so much that I bought it here. Lots of great ideas of how to bring geography alive!

Wonderful ideas for children or teachers!
