**Nicholas Awde : Georgian-English/English-Georgian Dictionary and Phrasebook (Hippocrene Dictionary Phrasebook)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Georgian-English/English-Georgian Dictionary and Phrasebook (Hippocrene Dictionary Phrasebook):

0 of 0 people found the following review helpful. good for learning of speaking it, not writing it By jackii hope it is accurate, as i am trying to learn it and am not native speaker so i can check it, but i do like it has pronunciations thruout in the easy to read english and not some weird symbol system..it doesn't have the georgian words too though to learn to read and write it, but at least mainly it has how to speak it fine..thats main i wanted anyways..always best to have both..but for some reason it likes to be one or other many cases? so this is the learn to speak it version type.0 of 0 people found the following review helpful. Great the Newest Edition By Hunyadi This is one of only books for Georgian. It is a good dictionary and phrasebook that is standard Nicholas Awde layout. The newest edition actually has the Georgian alphabet.6 of 7 people found the following review helpful. Unfortunately, the only game in town. By David A. Appling This little book is useful mainly because it's the only book of its kind available to most Americans. The book seems clearly to be a quickie, compiled in a hurry for the specialized use of NGOs, aid workers, Doctors Without Borders, and the like. Thus, in both the brief dictionary and the phrasebook, word and expression selection is geared to these people's specialized short-term needs at the expense of the general traveler's. Many common and useful words seem to have been sacrificed to those needs. "Uncle" is in the dictionary but not "aunt." Five pages are devoted to "relief aid" phraseology, but in "food and drink" only five (!) vegetables make the cut. The staple Georgian cheesebread, khachapuri, is relegated to a footnote. The grammar section is very sketchy indeed. And employing Roman rather than Georgian type may have short-term advantages, but does not help with signs nor in asking for directions. The book is simply not geared to longer-term needs such as learning the language. In fairness, it clearly isn't intended to. In summary, although this book falls short of my needs, on its own terms it certainly rates a "gentleman's C," especially since there's no viable alternative. But for a one-time visit, buy it -- it's way better than nothing.

The aim of this dictionary is to assist the student or traveler in expanding his or her knowledge of the language and culture of Georgia. Introduction to basic grammar Pronunciation guide Georgian alphabet Georgian to English and English to Georgian alphabet Georgian phrasebook, including all topics a visitor to Georgia needs to know, including time of day, dates, transportation, money, communication services, and much more Maps
