It took me a year to get those concepts through my thick skull. Amazing book.7 of 7 people found the following review helpful. Perfect for my weekend in Berlin!By Ruby 2zzThere have been times when my German wasn't bad, but the latest time was at least ten years ago! So when we planned a weekend in Berlin, I wanted something that would give me a quick refresher without going into all the complicated grammar. This book was perfect! I kept it in my purse (and it's not a big one!) for the week before our trip and reviewed whenever I had a few minutes. By the time we arrived in Berlin, I could order a local beer (most important of all, right?!), ask how much something costs, ask where the nearest ATM is...and even understand the answers! The pronunciation guide is really pretty good, so you don't have to have a recording to figure out the sounds. There is also a small grammar section in the beginning which does help for formulating questions and saying things in past tense, etc. English definitions are given in the text, but there is no separate glossary. If you have never had any German, it would take more than a week with this book to be able to get around like I did, but it is excellent to jog old memories. I am very happy with this purchase.1 of 1 people found the following review helpful. Great for beginners!By ChrisThis book is great! It has alot of main terms to know if you're travelling to germany. combine this with a german language software and you're set :)
