They are THE WAY TO LEARN A LANGUAGE. I have the same book in French and looked high and low for it in German. Just a shame there are not more available.11 of 11 people found the following review helpful. Solid Introduction to German LanguageBy A CustomerThe book provides a good introduction to the German language. Each lesson consists of a conversation followed by exercises. The conversation is written in German, with a pronunciation guide and English translation. The written exercises which follow the conversation emphasize key aspects of the lesson. My only complaints are these:
(1) some words are very hard to pronounce, and so the product would be better if it had a tape or CD accompaniment;
(2) there are usually only 10 exercises at the end of each chapter, and I would prefer more.
