ITMB Publishing : Ghana Travel Map Reference before purchasing it in order to gage whether or not it would be worth my time, and all praised Ghana Travel Map Reference:

1 of 1 people found the following review helpful. Decent MapBy TomGood map at a good price. Meets my needs.1 of 2 people found the following review helpful. One StarBy Yazzie66Not as comprehensive as I would have wished. I could not even find the US embassy on it

This title is like the Eveready Bunny, it just keeps selling and is now entering its seventh edition. This one has a change of ISBN, though not price, as we move into our new ITMB prefix for recording titles. Apart from that, we have changed anything that has been drawn to our attention since the last printing and have added new data for both the Accra and the Kumasi inset maps, but essentially, this is our new and improved map of Ghana for the next couple of years.
