National Geographic Maps - Trails Illustrated : Glacier and Waterton Lakes National Parks (National Geographic Trails Illustrated Map) before purchasing it in order to gage whether or not it would be worth my time, and all praised Glacier and Waterton Lakes National Parks (National Geographic Trails Illustrated Map):

12 of 12 people found the following review helpful. A sturdy map for terrain and trailsBy P. C. PoyAs part of the preparation for going into the Many Glacier area, some basic map reading skills are useful in an area where cell phones can have minimal effectiveness. This Trails Illustrated National Goegrphic map gives a preview of the area and some confidence by showing topography and trails. The maps were on thick paper, tear resistant, and waterproof. The map was large when unfolded. It covered a large area, where one inch on the map was 0.8 mile. Each contour interval was 50 feet.1 of 1 people found the following review helpful. Good map but no mileage for trails.By MattOnly thing I would add is miles for each trail. I had to buy a second map for that information.0 of 0 people found the following review helpful. Five StarsBy Lucy K.These are simply invaluable when backpacking and planning your trip.

Waterproof Tear-Resistant Topographic MapNational Geographic's Trails Illustrated map of Glacier and Waterton Lakes National Parks offers unparalleled detail for outdoor enthusiasts exploring the pristine landscape of forests, mountains, lakes, and meadows within these two spectacular parks. Created in partnership with local land management agencies, this expertly researched map features key areas of interest including Many Glacier, Great Bear Wilderness, Flathead National Forest, Hungry Horse Reservoir, Lake McDonald, Flathead River, St. Mary Lake, Akamina-Kishinena Provincial Park, and the Waterton Lakes. The Glacier and Waterton Lakes map is an invaluable resource for exploring the more than 800 miles of mapped trails within the parks, including the Pacific Northwest Trail, the Continental Divide Trail, and recommended biking trails. Recreation features are clearly marked, including campgrounds, trailheads, interpretive trails, fishing and boat access, and horse rental locations. The map base includes contour lines and elevations for summits, passes and major lakes. A variety of helpful information about recreation activities available in the parks, hiking and backcountry camping, regulations, and safety tips are included as well. Every Trails Illustrated map is printed on "Backcountry Tough" waterproof, tear-resistant paper. A full UTM grid is printed on the map to aid with GPS navigation. Other features found on this map include: Apgar Mountains, Bowman Lake, Flathead National Forest, Flathead Range, Glacier, Great Bear Wilderness, Kintla Lake, Lake McDonald, Lake Sherburne, Lewis Clark National Forest, Lewis Range, Livingston Range, Lower Saint Mary Lake, Mount Carter, Mount Cleveland, Mount Saint Nicholas, Mount Stimson, Saint Mary Lake, Upper Waterton Lake, Whitefish Lake. Map Scale = 1:100,000 Sheet Size = 37.75" x 25.5" Folded Size = 4.25" x 9.25"

About the AuthorFounded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
