**Duby Tal, Moni Haramati : Golan - Skyline** before purchasing it in order to gage whether or not it would be worth my time, and all praised Golan - Skyline:

Armed with cameras, exposed to the wind in a doorless Robinson light helicopter, through blistering summer sunsets in shades of yellow and black, and amidst the clouds of freezing winter sunrises above the icy blue Hermon - we chased the light. Flying dozens of hours over basalt planes, snow-clad slopes and river channels, soaring above and between tells and archaeological marvels we searched for the unique vistas of the Golan. This book presents our

caressing and loving view of the area. Doby Tal, photographer, and Moni Hardmati, pilot, are the proprietors of Albatros of Aalabatos aerial Photogrdphy and the creators of the Skyline Series.
