A fair bit of it was pretty general information. The questions I was most interested in getting answers to, e.g., where to fish from shore, types of fish in Round Valley, best lures to use, I could probably have asked the park rangers... A so-so book overall. 0 of 3 people

The beautiful blue water of this breathtaking New Jersey reservoir is 175 feet deep in one area and is home to countless lake, rainbow and brown trout. Large and smallmouth bass and some enormous pickerel are caught here too. State records were set for lake trout, brown trout, and smallmouth bass at the "Valley of the Giants".
