I \*really\* like this Yellowstone/Grand Teton one. Informative. I especially like that picnic areas are noted as my wife and I, when we go out for a day, usually like to do a picnic lunch at a scenic spot! 0 of 0 people found the following review helpful. Yellowstone is Benchmark's first national park and combined with Grand Teton National Park, the region is unrivaled in geologic wonder, dramatic landscapes, and unique wildlife. In 2013, the University of Oregon's Department of Geography's InfoGraphics Lab initiated a partnership with Benchmark Maps to develop a new recreation atlas that complements their successful academic title Atlas of Yellowstone. The result was this specialty recreation atlas and guide for Greater Yellowstone and Grand Teton. You will enjoy the features of this atlas of these national parks, the cornerstones of western park lands.
