National Geographic Maps - Reference : Greece Classic [Laminated] (National Geographic Reference Map)
before purchasing it in order to gauge whether or not it would be worth my time, and all praised Greece Classic [Laminated] (National Geographic Reference Map):

0 of 0 people found the following review helpful. RidiculousBy EOrdered a map of one country and received a map of another.

National Geographic's wall map of Greece and the Aegean is one of the largest and most detailed maps of the area. The signature Classic style design uses a bright, easy-to-read color palette and stunning shaded relief. Coverage includes mainland Greece along with areas of bordering Albania, Macedonia, Bulgaria and Turkey. Surrounding waterways, like the Aegean and Ionian Seas are shown with depth curves and soundings along with hundreds of islands, including Crete, Rhodes and Euboea. Also shown are thousands of place names, accurate boundaries, national parks, ruins and major infrastructure networks such as roads, highways, airports, railroads, canals and ferry routes. The map is encapsulated in heavy-duty 1.6 mil laminate which makes the paper much more durable and resistant to the swelling and shrinking caused by changes in humidity. Laminated maps can be framed without the need for glass, so the frames can be much lighter and less expensive. Map Scale = 1:1,494,000 Sheet Size = 30.25" x 23.5"

About the Author Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
