For anyone who cares about the environment, the impact of travelers on communities and their own health--this is the travel book to have. I have left places that stunk from the use of chemicals for cleaning or where the outgassing from carpets, wallpaper and the like literally made me sick. These accommodations list how they are eco-friendly. Additionally, many of them just sound like awesome places to stay--yurts and other unusual choices. This book will help guide you to the best environmentally friendly hotels and lodges. By the author of the award winning book, Harmonious Environment: Beautify, Detoxify and Energize Your Life, Your Home and Your Planet
