By LAGreat follow-up book to her first book. Once again she did a fantastic job of bringing her experiences in Ecuador alive. Enjoyed reading more about her life and missionary work over her first couple of years in Ecuador. Love how she tells her story in a way which makes you feel as if you were there!

By Susan LittleSuch a good read, funny, descriptive, poignant

This sequel to *Guinea Pig for Breakfast* continues Doctor Andrea's adventures in Ecuador. Filled with heart-warming stories about the patients and families she meets, it describes the culture and faith of her neighbours. Andrea also faces new challenges when her husband has an accident, her second child is born and thieves are on the prowl. How will she cope with homeschooling her children and the demands of her patients? An inspiring story that will keep you turning the pages.
Guinea Pig for Brunch delivers excellent insight into everyday living in Ecuador with the privations of poverty and danger laid alongside the simple faith and warmth of the individuals who come under Dr. Andrea Gardiner's care. Woven throughout, Andrea honestly shares her own questions and struggles as she brings up her daughters in a culture very different to that of her birth. More than a missionary doctor story, this is rather an unfolding of one woman's journey of trust and obedience to the God who called her to serve the suffering. I heartily recommend *Guinea Pig for Brunch*, but beware you will be challenged! Catherine Campbell, author of *Under the Rainbow* and *God Knows Your Name* This is a remarkable book about 'grace under pressure' and the miracle-working power of God to change lives in the midst of crisis. It will stay with me for a long time.... Jen Rees Larcombe, author

About the Author
Andrea Gardiner is a British medical missionary living in Ecuador. She loves writing about the country and its people, sharing the interesting cultural differences, and reflecting on the lessons she has learnt there. Now married, with two daughters, the challenges of raising her family in a culture different to that of her birth continue to make life interesting.
