It's a great read but I am moving on to Kindle versions ...By cbThis was the first purchase I ever made on back in December 1995 and today I just donated this book to a charity garage sale. What can I say after holding on to it for almost 20 years. It's a great read but I am moving on to Kindle versions of all my books to save space.30 of 31 people found the following review helpful. This book contributed greatly to my trip.By A CustomerI got a copy of your book before I left on my solo trip to China. I was inspired by the commonsense, supportiveand inspiratinal words in thebook. I always keep a journal on my trips. This time I made copies of thelittle inset boxes with the words of wisdom. I randomly glued them into myjournal before I left. It was amazing and inspirational where these words of wisdom showed up. For example, I was on a train somewhere betweenBeijing and Xian. I was in a sleeper with two older Chinese businessmen anda fellow from New Zealand. We were all shocked about sharing the sleeper. The room was hot, very hot and stuffy. In the middle of the night one of the businessmen wakes up, turns on the light and starts coughing, hacking, and spitting. I bail out of my bunk, go to thedining car, and start writing. I am the only Westerner in the car. In my journal, the saying on p 13 was on the page. "As a woman, my fearof being cooped up in my home without new challenges, new conversations, newvistas, far out weighs any fears I might have of traveling solo in a strangeland." Those words made my current experience much more the adventure. This book contributed greatly to a

wonderful trip. Thanks. Ev Levine, photographer, mother, wife, and addicted traveller. -----
