**Noel C. Bacchus : Guyana Farewell: A Recollection of Childhood in a Faraway Place** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Guyana Farewell: A Recollection of Childhood in a Faraway Place:

1 of 1 people found the following review helpful. Outstanding. By Thelma Vincent This book is not only well written, it is factually correct. I grew up in Guyana, South America and can relate to everything he writes about. He brought to my mind memories of my childhood and youth. Whether you come from this part of the world or not, you will find

this book interesting and fun to read. I purchased a copy for my sister and she loves it also. Hope this author will be inspired to write more books. Excellent. 3 of 3 people found the following review helpful. To be read again and again  
By Harry Lime  
A WONDERFUL BOOK, recounts of childhood days and growing up middle-class in a tropical paradise. It is all about growing up in pre-independence Georgetown - Guyana, with it's special quirky social mores, of blissfully flying kites at Easter, celebrating and enjoying Christmas, enjoying summer holidays in the country, playing cricket, the rainy season, attending Queen's College, sneaking out to that first fete, and of so many things that are important (and unimportant) to a any Guyanese boy. At that age, that time, that place - Life was sweet!! This book is the perfect gift for friendship, parenting, for any occasion. Oh, go ahead and treat yourself to a copy.

The language - elegant, lyrical, compelling - recollects and evokes a childhood in a faraway place and a time long ago. This book transports you to a world and way of life in a small British colony during the 1930s and 1940s that began to disappear after WWII.
