**Anthony Burton : Hadrian's Wall Path (National Trail Guides)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Hadrian's Wall Path (National Trail Guides):

bulky to keep in your pocket while walking the wall, and the maps don't show anything that isn't directly on the path. I think an accommodation guide coupled with the Harveys map make for better planning tools. 3 of 3 people found the following review helpful. Hadrian's Wall Path comes alive By Kindle Customer Since it is so frequently updated, it seems like it will be extremely helpful on our walk. Extremely detailed maps of each section mean we may not have to buy another map. Details of all kinds useful to walkers, about scenery, turns with specific instructions, sights to see or not, and whether or not to pack a lunch for certain sections. Lots of color pictures, very enticing. My husband is much more interested in this trip now that he read this book. 1 of 2 people found the following review helpful. Great aid for the Hike By Kathleen Whalen Hiking Hadrian's wall was greatly enhanced by having access to this book. The colorful maps were a huge assistance in managing our traveling path.

Since it opened in 2003 Hadrian's Wall Path has become one of Britain's most popular long-distance paths. Its 84 miles are a convenient week's walking, shadowing for the most part the historic line of Hadrian's Wall in its spectacular progress across the superbly wild landscape of the north of England. Starting in what used to be Tyneside's shipbuilding heart, and joining Newcastle in the east with Carlisle in the west, it takes you via the extraordinary Roman forts of Vindolanda and Housesteads, close to handsome towns like Hexham and Corbridge, to finish on the lonely shores of the Solway Firth with views of Scotland. This is the official guide to this superb National Trail, published in conjunction with Natural England which administers the path and waymarks it with its familiar acorn signs. Comprehensive and engrossing, it is the only companion you need.
