I also find the spiral book format much easier to manage than a traditional fold-out map. Why not 5 stars? Our new street, Cardean Place, is listed as Cardean Street. Not a huge deal but maps should be as accurate as possible.0 of 1 people found the following review helpful. check the date when you buyBy redbouncytiggeri didnt realize this is from 1994. otherwise the book is fine, but some roads have changed around me.1 of 1 people found the following review helpful. BETTER THAN GPS !!By VirginiaBETTER THAN GPS !!aBout the product, I have used these very often quite a few years ago, no cell or GPS, i wanted to make sure when going to visit my son at a hospital, that I'm not familiar with(area) I'm not crazy about GPS. I like to know for myself, as I'm driving what street is BEFORE the street, that I must make a turn, no surprises,

or pass that turn. when I used these, I was in direct sales, however, needed precise directions, these maps helped tremendously, was not familiar with the area. however, they were somewhat a little better, years ago, reason for 4, not 5 stars they do have good map details, street names what ever else is needed Years back, they had better Categories Counties maps, with tabs. but they STILL do the job. Now I must comment on the VENDOR:: Arrived earlier than the date promised, described (used) condition accurately AND importantly: the packing was superb, it held-up, the item was safe from the weather \ if any mishandling, we've had much rain, unfortunately the shipper, left it outside, the packing held up from the elements, thank God, it would have been soaked, no worries! Their title The "BEST and FASTEST BOOKS", very appropriate. They live up to their name!! Wonderful.

This large-scale atlas with comprehensive index, includes U.S., state and interstate highways, schools, parks, hospitals, cemeteries, golf courses and country clubs, Meadowlands Sports Complex, airports, railroad routes, ZIP codes and other points of interest.
