CorrI had originally gotten this book for my granddaughter at the library and was very impressed with the amount of detail contained in this Atlas. I have always had a love of maps and my granddaughter seems to have inherited that appreciation of studying other countries. I was very disappointed when I went to Borders to purchase an updated version and was told that they not only did not have an updated version but that they no longer sold the 2008 Hammond. I was thrilled to find a copy on and will consider buying other books that are not available in books stores from now on. Thank you, Maureen Corr0 of 0 people found the following review helpful. disappointedBy Janice P. ChingosThis book new is only \$19.95 -- price scratched out on the back. Bought it used and not in great shape for \$65.00. Was not aware of the size of the book or the original price, so when I received it and saw the size of the book and the condition for the amt.

of money I paid I was quite surprised and disappointed. Unless this is a collectors item the price was way out of line, in my opinion. 0 of 0 people found the following review helpful. Great for our 5 year-old! By Christie H. Michie We got this for our son for his 5th birthday and it was a good choice! Keeps his interest but is a bit over his head so he can grow into it.
