as its tips on traveling in Europe, especially, are well-worth its cover price and more. There were so many things I wish I had known as a newbie traveler that can come only with the advice of a really seasoned traveler that Dr. Paul has shared. His safety tips are simply invaluable. I especially liked the humorous, chatty way he has approached his subject matter and know if I had a child backpacking ANYWHERE I'd make sure a copy of this was in that backpack! 0 of 0 people found the following review helpful. good gift for a young newbie traveler By J.G. A basic primer, should have bought it for my teenage son, sure I will before he takes his first trip. If you already have travel experience skip it. 0 of 0 people found the following review helpful.
