Dr Les Beletsky : Hawaii (Travellers' Wildlife Guides) before purchasing it in order to gage whether or not it would be worth my time, and all praised Hawaii (Travellers' Wildlife Guides):

1 of 1 people found the following review helpful. Just moved to Hawaii and I have been searching for ...By Ashley Faith JacobsJust moved to Hawaii and I have been searching for a bit of this caliber. It has everything you'll want to know about the wildlife and plants you encounter. Ive been raving about it to anyone willing to listen. Not only does it have tied bits of information about each species it has the common name, scientific name, and Hawaiian name. Its

important to keep this language alive, and have it integrated into your vocabulary. If you're traveling to the state, definitely get this book. You'll earn a lot of respect from the locals here if you know what you're talking about and respecting their culture. 0 of 0 people found the following review helpful. A great book to have if you are wanting to learn ...By Hugh Mullen III A great book to have if you are wanting to learn about Hawaii wildlife. I use it as a reference while hiking and it is perfect.

One volume color guide to finding and identifying the most frequently encountered birds, mammals, amphibians, reptiles, fish, and insects.

About the Author Les Beletsky is a professional wildlife biologist and university zoology teacher. Prior to taking up writing wildlife guides he conducted many years of field research on the ecology and behavior of birds. He is the author of numerous books, including Costa Rica, Belize, Ecuador, and Peru in this series.
