Don't leave it behind!By ReaderThis a gem of a book- not for the squeamish (though they wouldn't be travelling off the beaten path, would they?!) and definitely not to be given to your hypochondriacal aunt before she goes on her next overseas vacation- but great for everybody travelling outside of say, North American Western Europe. V. practical, v. succinct v. realistic. Great help in planning your trip, esp. if you are

anyway intrepid in your travels. And loads of fun to read, with lots of v. funny bits.0 of 0 people found the following review helpful.
