As is our tradition goes, we usually have a serious gift and a joke gift. When we were brainstorming items for the joke gift, I recommended this book (based on the French version I had from when I transferred to a French speaking office). The book is filled with useful phrases and information that is perfect for a young single man or woman traveling to Japan. It is a mix of slang, common tourist phrases and cultural awareness points that is a MUST. The recipient liked his serious gift, but he LOVES this book

and uses it often. He says it makes him sound like a local.0 of 0 people found the following review helpful. Four StarsBy Mr. CruzVery good book to own. I recommend it.

Travelers will be able to speak like locals by using the vocabulary that is really used and not what is taught in schools. Hide This Phrase Book includes conversation starters, ATM and bank info, hostel expressions, fun entertainment options, making friends with the locals, and more. Also included is a two-way dictionary, featuring slang terminology, and cultural tips to help users fit in with the locals.
