Hazel Thompson : High Adventures in Bolivia before purchasing it in order to gauge whether or not it would be worth my time, and all praised High Adventures in Bolivia:

It is strange which incidents in a long life will stick in your mind and recall in detail when stimulated by pictures, smells, or word triggers that bring to mind the occasion. This book is a collection of such memories, each reflecting

the emotions and physical stimuli that accompany that moment in life. Each of us is the receptor and participant in that incident forever recorded in our store of significant moments in our lives; most are shared scenarios, but many are private, some secret, memories to be cherished or avoided in our daily routine. So many memories are lost, yet so many preserved and recalled occasionally or routinely. A few are forgotten only to be resurrected on some significant occasion. We have walked in these paths of recall from the start and to the completion of this book

About the Author Marshall Thompson is a humorous, old history buff who has lived overseas and been a short-time millionaire in several insolvent countries. He likes to play with words. You'll like it too.
