It may be OK for those day trippers but I needed it for a multi day bicycle trek into Wisconsin. Even so, the descriptions of the side routes are brief making the book only slightly useful. I got more info for my trip from Google maps and Street View.0 of 0 people found the following review helpful. He loved doing he personal reserach for all of our books ...By S. many years so am surprised to see this review. My husband, Jim, passed away in February 2004 otherwise all of our books would have been updated with current information. He loved doing he personal reserach for all of our books and enjoying the outdoors in the process.

Covers 36 forest preserves, parks, and pathways with more than 275 miles of trails and bike paths. Features trails in Kane and McHenry Counties such as the Fox River Trail and the Illinois Prairie Path. Describes interconnections and is filled with maps, photos and illustrations.
