I cannot believe what \$19 can buy.By Szabolcs SovenyiA great book loaded with information, maps and other beautiful graphics that keep the reader engaged. I bought it for my sons. I hope they will leave it in good shape, so I can read it also after I retire. When you have anything urgent to do, keep this book closed. Once you open it, you won't realize how quickly the hours fly by.0 of 0 people found the following review helpful. Five StarsBy M. Powellgreat0 of 0 people found the following review helpful.
