By Harry Hooper  
Good general highway map with places of interest, parks, and refuges, and geographical and land forms added. The map is made of moderate grade paper and will tear easily. Not for the field. A newer edition made with plastic coated paper would be most helpful.

It's a basic map, but can still work for someone if that's what they looking for. Shows major highways and such, but no details of city areas. Like POS or Arima.

It did everything I asked it to do

Very detailed travel map of Trinidad and Tobago has a scale of 1:150,000 suitable for driving and cycling and even for walking. Includes a place name index. The map is filled with travel related information and the islands' terrain is represented by nice colouring.
