Matthew Dickerson takes his readers from tiny mountain streams in the southern Rockies of New Mexico to the mighty Colorado River at the head of the Grand Canyon, to the Hill Country of Texas, exploring these various waters that manage to hold cold-loving trout in the midst of the hot desert landscapes of the American southwest. This lovingly described journey brings us through Dickerson's own life of discovery and his love of fly fishing, trout, and the rivers where trout live. Though neither an historical nor a scientific text, the writing is informed by both. The book is illustrated by original prints from Texas artist Barbara Whitehead.

If Matthew Dickerson's paean to the cold waters and elusive fish of the American southwest were not so beautifully rendered you might be tempted to put it down, get out your rod, and step into the nearest stream. But *Trout In The Desert* will stop you in your tracks. It is not only a splendid testament to one man's passion, but an enchanting evocation of a landscape's unfolding secrets."
