**Dana Facaros, Michael Pauls : Turkey, 5th (Cadogan Guides Turkey)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Turkey, 5th (Cadogan Guides Turkey):

Turkey has seen a huge increase in visitors over the past decade. Cadogan's thoroughly revised and expanded guide reveals why: over a thousand miles of the best coastline in the Mediterranean, near-perfect weather year-round, some of the tastiest cuisine in the world and more ancient ruins than even Greece can offer. The authors, who are authorities on Mediterranean travel, explore the country's cosmopolitan capital, Istanbul, the hot springs of Pamukkale; and Antalya, Turkey's fastest-growing and wealthiest city, where people swim and ski in the same day.
