Doug Shidell : Twin Cities Bike Map (Bikeeverywhere) before purchasing it in order to gage whether or not it would be worth my time, and all praised Twin Cities Bike Map (Bikeeverywhere):

0 of 0 people found the following review helpful. This is a new edition of the MapBy Douglas W. ShidellThe Twin Cities Bike Map is updated every three years. The 2002 edition mentioned in an earlier review was two editons ago (Edition 7). Most of the research on this edition was done in fall of 2007 and the map was printed in Spring of 2008.0 of 2 people found the following review helpful. It's 5 years out of date!!!By CB(Refers to the map edition) An excellent map in 2002 - when it was published. There has been extensive growth and change in the bike trails of the Twin Cities since then. I unfortunately did not realise it was so old. Beware!

The 9th edition of this very popular bike map of the greater Minneapolis/St. Paul area has been completely updated and printed on tear and water resistant paper. Minnesota is known for its 10,000 lakes, but it s also home to the vibrant and bike-friendly Twin Cities of Minneapolis and St. Paul. The Twin Cities Bike Map has been part of the local bicycling scene since 1984. All routes have been field tested and form a network of roads and trails that will take riders anywhere from the core cities to the outlying counties seamlessly. Map Details: Size 34" X 22" Side 1: Detail map of Minneapolis and St. Paul showing a network of bike roads and trails. Smaller roads have been grayed out to improve readability. Side 2: Suburban and ex-urban roads and bike trails covering an area from the St. Croix River to Lake Waconia and from Hastings to Marine on the St. Croix. All routes are interconnected so riders can get anywhere in the area on a continuous network of bike friendly roads and trails. Smaller roads have been grayed out to improve readability.

About the AuthorDoug Shidell has been riding and researching the bike roads and trails of the Twin Cities since 1981. He has written numerous magazine and newspaper articles about bicycling and is the author of Bicycle Vacation Guide, a guide to the backroads and rail trails of Minnesota and Western Wisconsin.
