They are dummy heads because if you could translate my italian back into english you will see that prior to the purchase of this book I spoke no italian... and after reading the book I took office in Italy... ok... Not really...but I can give you directions and communicate with children with fluency.0 of 0 people found the following review helpful. Ready to learn Italian? Check out this bookBy MRMACHINE of RaleighI bought this book because my night school class was using it as a text book. The book is quite thorough, but is difficult as they seem to jam lots of material in each chapter. They say this book covers two years of College level Italian introduction. I beleive it. The teacher prefers other books which are not as demanding. Make your own choice.0 of 3 people found the following review helpful. Excellent Service and truthful description of condition.By Neil HarperI was very pleased with the Excellent Service and truthful description of the condition of the book.
