**Map American : United States Map and World Map - 2 Wall Map Set** before purchasing it in order to gauge whether or not it would be worth my time, and all praised United States Map and World Map - 2 Wall Map Set:

0 of 0 people found the following review helpful. much bigger than i thought By Customer I don't believe the description included the exact dimensions. I was surprised to find out the maps were so large (approximately 30 x 50).

Also, I was expecting one of those stiff laminated maps you can find in school rooms. These are very flimsy. That being said, the fact that the US map has smaller city maps at the bottom and the world map has the flags are definite pluses. The size of the maps makes it easier to pinpoint smaller towns, which is great for showing my young children where we are travelling at a given time. overall, it was a good buy. 0 of 0 people found the following review helpful. OK, but if I could turn back the time - I'd look for sth else. By Justyna Bialoglowicz Maps in general look well. But I don't know if \$30 is small enough for such quality. I expected something more solid than big sheets of printed medium quality paper. In the USA map, the font of the biggest cities and capitals is too small and it's sometimes hard to find them. And the colors - are much more "neon" than you can see in the picture - some pink that guys would resent lol 3 of 3 people found the following review helpful. World USA Laminated Maps By T. Vitela I have to disagree with anyone who was disappointed with these maps. For the price you couldn't get better maps. They are laminated with a thin plastic but for tacking on the wall they are wonderful. I put a simple wood frame around them in my office and I get compliments on them all the time! It's amazing how a map can be a conversation piece, especially when you work in a foreign country with many others from all over the world!

This Colorprint wall map is accurate, informative and ideal for sales executives, travel agents and school teachers. Our quality United States and World Maps are packed together at one very economical price. The United States map shows time zones, major highways, state capitals, national parks and monuments, and insets of major cities. The World map shows time zones, national boundaries, national capitals, major cities and towns, and flags of the nations. The heavy duty laminated surface protects from wear and tear and can be marked with a grease pencil, crayon or erasable marker, then wiped clean with a damp cloth. Suitable for framing and available in a variety of mounting styles.
